Subject : DALGIDJ diving company

Dalgidj diving company was employed to remove soil from the Trident 20 spud cans. This was a huge job, which involved the removal of soil up to a depth of 3 meters on three spud cans which are 18 meters in diameter.

This work took place over approximately one month during the winter when conditions were at their most difficult. Some of the work was done on a 24 hour per day basis with a team of up to 10 people.

Dalgidj proved themselves to be safety conscious, hard working and innovative in completing this difficult task.

I recommend Dalgidj for diving services and would not hesitate to use them again.

Regards,

A handwritten signature in blue ink that reads "Mark V Covault".

Mark Covault
Trident 20 rig manager.
